DETAILED ACTION

This Office action is responsive to the amendment filed 12/1/2004. Claims 1-11, 23-47, and 49-51 are presented for examination; claims 12-22 and 48 have been canceled.

Allowable Subject Matter

Claims 1-11, 23-47, and 49-51, are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record, alone or in combination, teaches each limitation of independent claims 1, 23, 34, 41, 45, 46, 47, 49, 50, and 51. Specifically, the prior art of record does not teach or suggest within their combined scope of invention a --first read clock signal-- and a --second write clock signal-- being transmitted over independent signal lines. In other words, the prior art of record does not teach, within the scope of invention, utilizing a particular clock line when reading from one direction of transmission and utilizing a *different* clock line when writing in an opposite direction of transmission. Therefore, the claims of the Applicant, when taken as a whole, are not taught by the prior art of record, alone or in combination with each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
